

## Kukje Gallery Launches Online Viewing Room

Kukje Gallery is pleased to announce the launch of *kukje ON*, a new digital initiative developed to recalibrate the gallery's means of outreach during these changing times. *kukje ON* aims to complement the offline experience of physically visiting an exhibition and chart an exciting path for the gallery to better engage audiences worldwide.

The inaugural edition of *kukje ON*, which will remain on view from April 22, 2020, brings together 22 works by a discrete roster of 10 Korean and international contemporary artists. Highlights include recent works by the Dansaekhwa master Ha Chong-Hyun, along with celebrated works by subsequent generations of Korean artists including Haegue Yang, Kyungah Ham, Ahn Kyuchul, Gimhongsok, and Sungsic Moon. This online showcase will also introduce works by prominent international contemporary artists including Jenny Holzer, Julian Opie, Jean-Michel Othoniel, and Daniel Boyd. Individual artworks can be clicked on to access further information and additional images.

We hope you enjoy the virtual tour!
