FOCUS LA
This year’s Focus LA section, curated by Amanda Hunt (Director of Public Programs & Creative Practice, Lucas Museum of Narrative Art), celebrates work by artists who are emerging, whose narratives or practices may be lesser known, and whose use of material — either of the exhibition space, the body, or (non-) traditional form — is done in powerful and innovative ways. Championed by galleries who are dedicated to upholding their work, the artists featured in each booth represent equally ambitious approaches to making.

The selections highlighted in this section of Frieze Los Angeles range from the political to the personal, and often in ways that are overlapping. The diversity of expression featured here is a way of mapping this sprawling city, capturing some of its freshest offerings, collaborations and cultural expressions.

Behind each presentation is a story to be discovered.
